

Lane Assignments May 17 thru July 2

There should be room for everyone that wants to swim.
2 swimmers/lane.

To make this work somewhat seamlessly - I would like to have your weekly availability by Friday evening of previous week. If you have dates for the month, that works even better. Please include days you want to be on wait list.

May 17 thru May 28:

6 lanes MWF = 12 swimmers per session

6 lanes TTh = 12 swimmers per session

I need to hear from everyone by Monday, May 10 on their swim plans for remainder of May. City of SF requires my lane reservations the following day.

June 1 thru July 2:

I can request up to 6 lanes M-Fri.

I need to hear from everyone by Monday, May 24 on their swim plans for the month of June. City of SF requires my lane reservation the following day.

Cancellations:

Life happens and last minute cancellations can be managed if we have a current waitlist. You will be responsible contacting the waitlisted folks via text (include coach on text, too) and canceling yourself from roster on website. Regardless, all reserved lanes will have to be paid for. This time around, City of SF is not as lenient with no charge for unused lane space.
